

This month we had:

- 140,711** lbs of total waste
- 29,360** lbs were landfilled
- 29,360** lbs were recycled
- 271** lbs were composted*

Compost services temporarily put on hold due to new state-wide restrictions; we are working on a solution as fast as possible

Watch this Space:

The Auraria Sustainable Campus Program has temporarily placed front-of-house compost services on hold due to the new, state-wide restrictions on compost collection (see the press release on the right). Our team still offers back-of-house composting to campus food vendors.

We are working around the clock to provide the Auraria Campus with a comprehensive composting service as soon as possible.

A1 Organics Press Release

Effective April 1, 2023, accepted materials in residential and commercial compost collection will be limited to:

- ONLY food scraps
- ONLY yard / plant trimmings
- ONLY 3 gallon certified (CMA Approved) compostable bags used to collect food scraps

Did you know. . .

Welcome Robbie Tepperberg! Robbie is the ASCP's first Compost Operations Manager.

Environmental Impacts

We avoided **7.9** metric tons of GHG through our waste diversion efforts.

Or the equivalent to:

1.7 homes' yearly energy use

34,419 miles driven by passenger vehicles

16 acres of forest sequestering carbon
