

This month we had:

174,475 lbs of total waste
132,620 lbs were landfilled
29,480 lbs were recycled
12,375 lbs were composted

Compost Outpost

The ASCP is now collecting and processing campus' compost on site! The project encompasses expanding compost receptacles, mandating certified compostable to-go ware for food vendors, implementing rigorous compost sorting procedures, utilizing a state-of-the-art BioCoTech in-vessel composter for processing, and returning the nutrient-rich compost to nourish campus trees and plants.

Did you know...

Auraria Campus is the first in the U.S to collect, sort, and process campus compost all on site! The result is faster, cleaner, compost all without increasing the student fees that fund the ASCP.

Environmental Impacts

We avoided **73.6 metric tons of GHG** through our waste diversion efforts.

Or the equivalent to:

9.6 homes' yearly energy use

188,167 miles driven by passenger vehicles

85.9 acres of forest sequestering carbon
