

BE BIKE-AWARE!

The Auraria campus has one of the highest bike theft rates in the city and we noticed your bike was locked incorrectly! To avoid getting stolen, here are some helpful tips:

- **Invest in a U-Lock** (Cable wires on their own can easily be cut, see photo to the left for examples of proper techniques)
- **Lock your bike through the frame**, not the wheels
- **For extra security**, U-lock through your front quick release wheel in addition to the frame
- **Register your bike** with the Auraria Police
- Gain access to **secure bike parking** in Tivoli Garage, inquire in Tivoli 325 for ID encoding
- **Share this information** with your friends!
