

**DID YOU KNOW NEARLY  
40% OF ALL FOOD IS WASTED?**

**COMPOSTING:**

- ✓ Adds valuable nutrients to soil
- ✓ Allows a 'recycling' of organic materials
- ✓ Lowers greenhouse gas emissions
- ✓ Breaks down quickly

# COMPOST EXPANSION REFERENDUM

## What does the referendum ask?

The Compost Expansion Referendum is a question about raising the Auraria Campus Sustainability fee **an additional \$3 per person for campus-wide composting services.**

Increasing the fee provides the additional funding to invest in the infrastructure (bins, compostable bags) and services (hauling, pest control, signage updates, staffing) to bring compost campus wide.

## Who created the referendum?

Students for Sustainability Club and the Auraria Sustainable Campus Program. Over **2,000 student signatures** were collected in support of bringing this to a vote!
